

Covid-19: **protect your students and staff** with fanute's **face mask rental programme.**

As a school, you are now responsible for the effective protection of your campus during the coronavirus pandemic.

A single case of COVID-19 could shut your school down for weeks; your staff and students need protection throughout the day.

Fanute's reusable face mask rental programme provides:

-  Daily delivery of 3-layer reusable cloth face masks, sufficient for regular replacement based on your specific needs.
-  Used face masks are collected each day and washed to WHO recommended levels in our industrial laundries, using industrial strength disinfection.
-  Prices start from as little as R4.30 (ex VAT) per day per user

Outsource the risk and the headache of managing your face mask programme.

About fanute

Fanute is a leading linen and textile rental company to the corporate, hospitality and residential sectors.
